

1000 bar Tee Block - 2 inlets 1 outlet

This tee block is designed for 1000 bar working pressure.

The tee is delivered fully assembled with self sealing quick connect couplings and nipple for fast and clean operation. The quick connectors are fitted with GREEN plastic dust caps.

The tee is assembled, filled with oil and pressure tested prior to despatch. Test certificates are provided.

All tee blocks are marked with the maximum working pressure, the part number and a serial number for identification.

This tee block conforms to the European Pressure Equipment Directive and is CE Marked.

Self sealing quick connect nipple inlet with green plastic dust cap

Self sealing quick connect nipple inlet with green plastic dust cap

Self sealing quick connect coupling outlet with green plastic dust cap
