

2500 bar 10m Interconnecting Hose

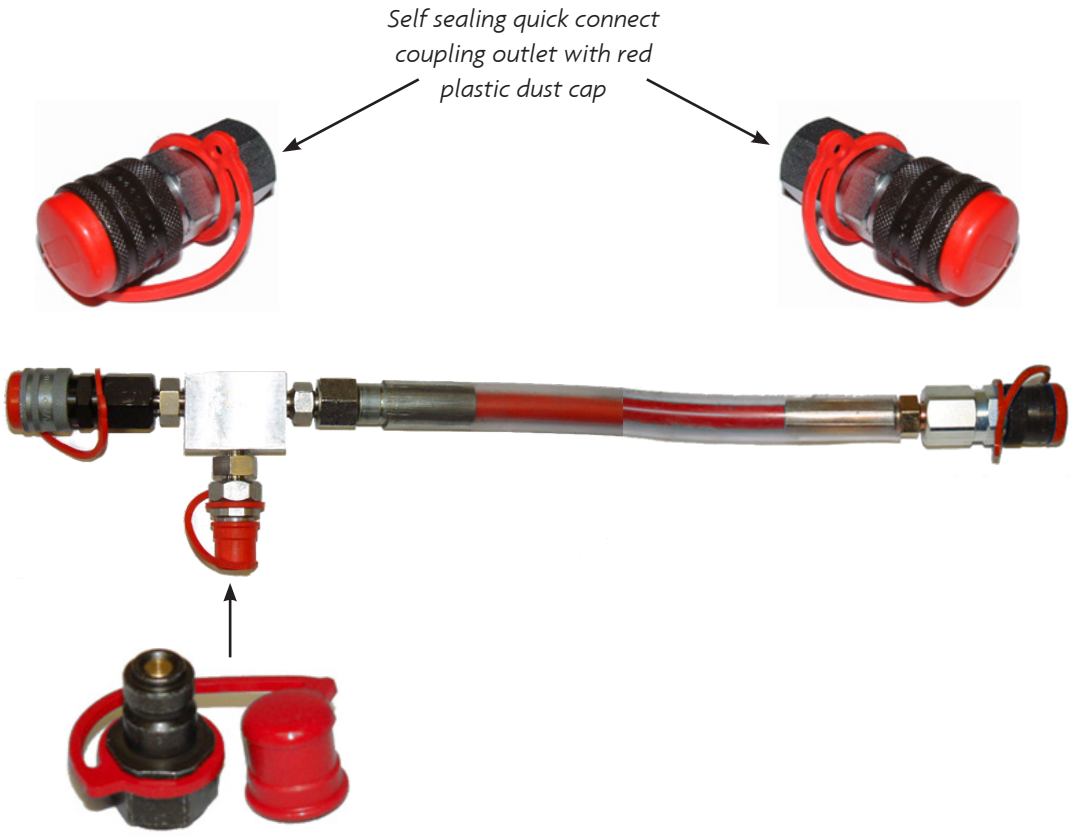

This 2500 bar working pressure interconnecting hose is manufactured from multi spiral reinforced high pressure flexible hose, colour coded RED.

The hoses are delivered fully assembled with tee block, self sealing quick connect couplings and nipple for fast and clean operation. The quick connectors are fitted with RED plastic dust caps.

Hoses are assembled, filled with oil and pressure tested prior to despatch. Test certificates are supplied.

All hoses are marked with serial numbers for identification. Hoses are assembled with a clear PVC cover for additional protection against abrasion and chemical attack.

Minimum burst pressure is 6550 bar and the minimum bend radius is 200mm. This hose assembly conforms to the European Pressure Equipment Directive and is CE marked.

10m Interconnecting Hose
CE Marked
