

700 bar Hand Pump

This economy hand pump can be used with all Boltight 700 bar tooling and equipment.

The pump has one high pressure piston and is supplied without a pressure gauge. The pump has an internal pressure safety relief valve and is fitted with a 600cc oil reservoir. The oil outlet is fitted with a self sealing quick connect coupling

Hand pumps should only be used with one or two tensioning tools. When simultaneous operation of several tools is being considered Boltight recommends the use of an air driven pump.
